## CutArt Notes and Specifications

This is the printable version of the Wizard CutArt Library. The CutArt Library currently contains 994 CutArts, which was last updated on 10/13/04.

### Min Size:

Minimum Size listed is approximate.

### Certification

“Certification” of CutArt verifies that the specific CutArt has been tested with the following parameters in Version 5.X:

Certification will be designated by an entire category (Certified CutArt) or individual CutArts (Certified on...)

### VG-Yes/VG-No

VG-Yes or VG-No states whether or not a Certified CutArt would cut properly as a V-Groove at the Original Size on the 8000 machine. Use your discretion.

### Complexity Rating (CR)

The Complexity Rating (CR) listed for Certified CutArt is based on the primary number of corners in a fixed setting. Note that this number may vary dependent upon the application of the CutArt, such as rotation, bevel application, merging, etc.

Minimum Sizes are approximate. Complexity Rating (CR) for Certified CutArt is based on primary number of corners in a fixed setting. VG-Yes/VG-No states whether a Certified CutArt will cut properly as a V-Groove at the Original Size on the 8000 machine. See “CutArt Notes and Specifications” for more information.

## American Flag Mat

If you need more information on designing a mat with CutArt, please refer to your Wizard Manual.

### Cut White Mat

1. Design a 16x20" mat in Multi.
2. Put the FlagCutInWhite.WCA CutArt onto the mat.
3. Select Use Original Size and Click Apply Changes if necessary. Center as desired.
4. Cut in white matboard. Place white matboard on top of red matboard.

HINT: You might use sticky notes or something to hold the edges near the top as it cuts because the stripes tend to curl up, and the gantry might catch on it and tear the mat.

### Cut Blue Mat

1. Design a 9x8" mat in Multi.
2. Put FlatCutInBlue.WCA CutArt onto the mat.
3. Select Use Original Size and Click Apply Changes if necessary. Center as desired.
4. Cut in blue matboard. Place blue matboard onto white matboard.

HINT: Remember to set your Plunge Count so that you can change the blade.

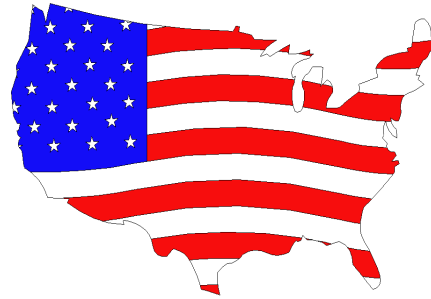

### To Scale the Flag

1. Design the mat in Multi.
2. Put the FlagCutInWhite.WCA CutArt onto the mat.
3. Under Properties, select KAR and Click Apply Changes.
4. Under Properties, enter the desired Height and Click Apply Changes (don't make smaller than the Original Size).
5. Cut the mat.
6. Measure from the back the area where the blue would go.
7. Create a new multi mat with FlagCutInBlue.WCA CutArt.
8. Under Properties, select KAR and Click Apply Changes.
9. Under Properties, enter the desired Height and Click Apply Changes.
10. Cut the mat.

Minimum Sizes are approximate. Complexity Rating (CR) for Certified CutArt is based on primary number of corners in a fixed setting. VG-Yes/VG-No states whether a Certified CutArt will cut properly as a V-Groove at the Original Size on the 8000 machine. See "CutArt Notes and Specifications" for more information.

## American Wavy Flag Mat

If you need more information on designing a mat with CutArt, please refer to your Wizard Manual.

### Cut Main Mats

1. Design a 20x16" mat in Multi; use pre-sized 20x16" matboard to cut this design.
2. Put the FlagWave.WCA CutArt onto the mat.
3. Under Properties, select Use Original Size and Click Apply Changes. Under Alignment, Center the CutArt.
4. Cut the small rectangle in white matboard but do not remove the finished cut. This small rectangle piece will be placed behind the stars later.
5. Cut the stripes out on the same white matboard we just cut the small rectangle out of.  
HINT: You might use sticky notes or something to hold the edges near the top as it cuts because the stripes tend to curl up, and the gantry might catch on it and tear the mat.
6. RE-Cut the same small rectangle in red matboard. You will be putting the white rectangle into the red matboard as an inlay.
7. Cut the United States out in the desired color.

### Cut Blue Stars Mat

1. Design a 9x8" mat in Multi.
2. Put FlagWaveCutInBlue.WCA CutArt onto the mat.
3. Select Use Original Size and Click Apply Changes. Center as desired.
4. Cut in blue matboard. You will be placing blue matboard onto the white matboard.  
HINT: Remember to set your Plunge Count so that you can change the blade.

### Assembling Flag

1. Place the white rectangle into the red mat.
2. Place white matboard with stripes cut out of it onto the red mat.
3. Place blue mat with stars into rectangle on white mat.
4. Place United States on top.

### To Scale the Flag

1. Design the mat in Multi.
2. Put the FlagWave.WCA CutArt onto the mat.
3. Under Properties, select KAR and Click Apply Changes.
4. Under Properties, enter the desired Height and Click Apply Changes (don't make smaller than the Original Size).
5. Cut the mat.
6. Measure from the back the area where the blue would go.
7. Create a new multi mat with FlagWaveCutInBlue.WCA CutArt.
8. Under Properties, select KAR and Click Apply Changes.
9. Under Properties, enter the desired Height and Click Apply Changes.
10. Cut the mat.

Minimum Sizes are approximate. Complexity Rating (CR) for Certified CutArt is based on primary number of corners in a fixed setting. VG-Yes/VG-No states whether a Certified CutArt will cut properly as a V-Groove at the Original Size on the 8000 machine. See "CutArt Notes and Specifications" for more information.
